

# DataCom Solutions Capabilities

North Coast Electric's DataCom Division offers a wide array of high quality, high performance DataCom products and services. We provide complete structured wiring solutions for the industrial; commercial; residential; and automation markets.

## North Coast Provides:

- Technical customer support personnel with over 30 years experience in the industry
- Certified contractor recommendations for quality installations
- On-site product demonstrations available as needed

## Services Offered:

- Vendor managed inventory programs
- A job site bar coded portable store for on-site datacom projects
- Consigned inventory stock programs on the customer's premises
- Stock, organize and bar code your warehouse area for the products that we supply
- An RCDD on staff for design consulting and recommendation assistance

## Products Offered:

- Connectivity and cabling for Copper, Fiber Optics and Coax Structured Wiring Projects
- Racking, Cabinets, Wire Basket & Fiber Tray, Tools and Test Equipment
- And much more

## Packaging and Kitting Services:

- Regional and National rollouts

## Training Services:

- Onsite group training for your technicians in Fiber & Copper Terminations
- Vendor online training modules available

North Coast Electric's DataCom division strives to offer solutions not just products. We take the time to understand our customer's true needs and make recommendations that best satisfy those needs.

Thank you for considering North Coast Electric's Datacom Division
