Additional Services

Liteway Project Management

Is Storage Space a Premium at Your Jobsite?

We have innovative solutions for your project requirements.

How It Works:

- Place your order with NCE's Projects Department
- We will order and store your Lighting and/or Switchgear
- We receive, inventory & sort by fixture type, job name & PO#
- We file freight claims ... not you
- We deliver what you want when you need it

Benefits:

- You get what you want, the exact quantity you need, when you want it
- Relieves you of receipt and storage from freight lines
- No need to file freight claims!
- Both Lighting and Switchgear can be stored
- At minimal Cost to you
- Ask your salesman how you can get signed up!▪

**Call today to find out more.

Inventory Management Solutions

Would You Like To ...

- Quit standing around waiting for a delivery?
- Always have competitive pricing on jobsite materials?
- Eliminate prolonged delivery of stock items?
- Have full inventory that is consigned?
- Always have the material on hand needed for your project?
- Eliminate the cost of procuring last minute items?

We Will Provide You With ..

- A Vendor Managed Inventory program dedicated to providing efficient replenishment of material
- An organized conex that utilizes a dependable barcode arrangement
- Material will be billed as it is replenished
- Detailed usage reports will ensure current and competitive pricing
- North Coast Electric will replenish inventory, based on a pre-determined schedule

Let North Coast Electric build a Supply Solution that works for you.
